

**** Qrexorder Update Instruction ****

Qrexorder - SaaS Restaurant / Qr Menu / Whatsapp ordering / Reservation system.

Step 1: Download the latest file from Codecanyon.

Step 2: Extract the download zip file on your PC

Step 3: find the update_package.zip file inside the extracted folder. Like this

Name	Date modified	Type	Size
update_version_4.5.zip	10/4/2022 8:40 PM	WinRAR ZIP archive	35,200 KB

Step 4: Upload the update_version_X.zip on your server **mop** directory and extract and replace all files and folders. **Make sure you replace all files and folders.**

Step 5 & Final step: Goto your script, log in as admin and wait for the update wizard.

Follow the instruction and enjoy the latest version.
